The opening summary to the abovementioned guide states the following:

This report has been prepared for submission to Parliament under sections 23(2) and 24(1) of the Auditor General Act 2006. Better practice checklists regularly feature in my Office's performance audit reports as a means of providing guidance to help the Western Australian public sector perform efficiently and effectively. This is the first comprehensive stand-alone better practice guide we have produced. While prepared primarily as a resource for audit committees in State and local government entities, it also provides Parliament with further insight on the significant role public sector audit committees play in supporting quality public administration.

The *Western Australian Public Sector Audit Committees – Better Practice Guide* provides principle-based guidance for State and local government entities in Western Australia.

- *have more than one committee (i.e. if there are areas with very different emergency management needs within a local government, each area may have a separate LEMC. The entirety of the local government district must be covered, and the boundaries of the individual committees must be clearly set out)*
- *join with another local government and establish a LEMC for their combined districts (i.e. if two local governments are closely located and have very similar emergency management needs, the LEMC may cover more than one local government district).*
